GRADUATE DEGREE PROGRAM INFORMATION

General Requirements for Admission, Progression, and Graduation. Students applying for the MBA and MSA programs should read carefully the sections of this bulletin on Graduate Admission, General Academic Information, and Graduate Degree Academic Information. Applicants to the School of Business must be informed about the minimum admission and graduation standards required of all graduate students.

Special MBA Admission Requirement

Students applying for the MBA degree are required to take the GMAT exam (applicants to the MSA programs may elect to take either the GMAT or the GRE). Applicants should note carefully the formula score based on GPA and GMAT results: it is used in evaluating applicants to the School of Business.

Undergrad Cumulative GPA	x	200	+	GMAT score (400 min.)	=	1000
--------------------------------	---	-----	---	--------------------------	---	------

Admission to the MBA program requires a minimum formula score of 1,000 computed by multiplying the undergraduate cumulative GPA by 200 and adding that product to a GMAT score of at least 400.

Description of Graduate Degree Programs

See Graduate Programs (p. 226) for degree requirements for inter-departmental graduate degrees in the School of Business.

MISSION

The Department of Accounting, Economics, and Finance offers majors that are intellectually stimulating, professionally challenging, and rewarding. We endeavor to provide the best preparation possible for careers in business, government, academia, and the church.

The faculty seeks to provide students with training and education which will qualify them for employment in a multicultural and global environment. A Christian education encourages an awareness of moral and ethical responsibilities in one's personal and professional life. It is in this context that the department holds up Jesus Christ as the best model for personal responsibility and development and seeks to encourage its students to follow His example.

Undergraduate Programs

ACCOUNTING

Accounting is concerned primarily with (1) measuring income, expenditures, and wealth generated by a business enterprise, and (2) communicating information about the financial condition of economic organizations and the results of their financial activities. Thus, accounting is the language of business—the backbone of the free enterprise system.

The accounting major is designed to meet the needs of students preparing for accounting careers in business, government, not-for-profit organizations, or public accounting, including those who
