

CAEP Annual Report 2024

Measure 4 (Initial and Advanced): Ability of completers to be hired.

Initial Level

The TPP had 100% employment with 2022-2023 completers. One candidate is working in a K-12 school in an area other than which they were prepared for state licensure. The candidates earn both state certification as well as the Seventh-day Adventist (SDA) certification allowing them to teach in either the SDA educational system or the public system. All three completers in 2022-2023 are working in the public system.
